Item A Academic Year- Based on the number of hours and weeks of a program. An academic year is defined by the Federal Student Aid regulations as a minimum of 900 hours and 26 weeks. Programs with more than 900 hours have 2 academic years.

Item B Pmt Period 1/2- a portion of the scheduled clock-hours defined for Financial Aid and Billing purposes. ***Payment periods do not correspond to academic terms.*** Tuition and fees are charged for each payment period, and often encompass multiple and/or partial academic terms. Financial Aid disbursements are also processed for payment periods.

Disbursements: Federal Pell Grants and Direct Student Loan proceeds are disbursed to students in multiple installments aligning with payment periods. The first payment period begins at the start of the student's program and ends when the student reaches the Mid-Point of the scheduled academic year at which time the second payment period begins. The Mid-Point is defined as the student successfully completing half of the scheduled hours **AND** half of the weeks in the scheduled academic year.

The first disbursement of federal financial aid funds occurs approximately thirty (30) days after the first day of enrollment. Disbursements are transferred electronically to the school and credited directly to the student's account card. Students are notified in writing when loan funds have been disbursed and posted to their account. ***Students then have 30 days in which they can cancel all or a part of their loan. Students must make this notification in writing to the Financial Aid Office.***

Scholarships and payments from other sources are posted to the student's account as they arrive at the school.

To be eligible for the second disbursement of federal grant and/or loan proceeds, students MUST have successfully reached the Mid-Point of the program's academic year **AND** meet the Satisfactory Academic Progress guidelines for Financial Aid. Failure to meet both requirements will result in financial aid funds being either delayed or cancelled.

☑ DONE!

Satisfactory Academic Progress: Students are required to maintain Satisfactory Academic Progress (SAP) in order to remain eligible for Title IV financial aid funds (Pell grants and Direct loans). The standard includes a quantitative measure (minimum standards of completion) as well as a qualitative measure (grade point average).

Students must earn a cumulative grade point average of 2.0 (C average) or above **AND** successfully complete 67% of the clock hours attempted in order to remain eligible for subsequent disbursements of financial aid.

Academic progress will be reviewed at the close of each payment period, as scheduled, in order to ensure the above are met and determine eligibility for continued financial aid.
